GAR Services

"America has become great as it has remained steadfast in its Biblical faith," Rev. Martin H. Knutsen, pastor of the Prince of Peace Episcopal Church, said Sunday afternoon at the annual Grand Army of the Republic Memorial Services presented by the Sons of Union Veterans in the GAR rooms, E. Middle St.

"A Memorial Day service brings to mind the history of our country, those who have given themselves in the service of our country and our purpose as citizens of our nation," he said. We should recommit ourselves to the spirit of America. We should think not only of those who gave their lives in battle that our nation should live, but also those who gave throughout long and useful lives to advance the course of human liberty.

"The history of our country and the lives of those who gave heroically helps us understand what America is.

Drums Roll

"But as we deepen our study we recall that this nation has not always been. That the men who founded it did not have an America — they were founding it. But they too had a heritage. We too have to recover this heritage ou of which America was founded if we are to be true to the American

"The founding fathers based their nation on God-given principles and as we commit ourselves to the living God and His eternal principles so we commit ourselves to our heritage.

Taylor, Harrisburg, declared Sunday afternoon at the annual colored Memorial services.

With rain wiping out plans for a parade through the town and services at the cemetery, the program was held at the AME Zion Church, S. Washington St., after a brief march by some units from the Dorsey-Stanton post of the American Legion where the various units had gathered in anticipation of the scheduled parade.

Mr. Taylor, a retired lieutenant of detectives from Harrisburg, president of the board of managers of the Forster St. YMCA, Harrisburg, and grand esquire of the Improved Benevolent Order of Elks of the World, said: "You are honor to live in Gettysburg, for this community marks the start of one of our forefathers' foremost desires - to become free men.

Mount Everest Is Scaled Again

KATMANDU, Nepal, May 28 P-A Swiss mountaineering expedition has made two climbs to the top of Mt. Everest, the world's highest peak, and also conquered the neighboring mountain, Lhotse-1, a Nepalese government spokesman announced

Two Swiss, Ernst Schmidt and Judg Mariet, climbed to the top of 29.028-foot Mt. Everest on May 23, he said. They were the second team to make the climb successfully, duplicating the feat of Sir Edmund Hillary and Sherpa Norgay Tenzing, members of a British expedition who first reached the top on May 29, 1953.

The next day, the spokesman said, a second team of Swiss made it to the summit of Mt. Everest. On May 18, Ernst Reiss and Fritz Luchsinger of the 13-man Swiss group reached to top of Lhotse-1, 27.870 feet high.

Bulletins

LONDON (A) - Three Cypriot gunmen were reported nunted today by police who have thrown a close royal family.

The News Chronicle said the three are known to have left Cyprus with faked passports, presumably for England. They have not been intercepted anywhere and they could have reached this country by now, the newspaper said.

ST. LOUIS (A) - A mistrial was declared today in the case of Harry I. Schwimmer, an attorney on trial with two Truman administration officials on a oenspiracy charge in federal court here. The mistrial ruling applied only to Schwimmer, who became ill in the courtroom last week and went to a hospital.

DETROIT (A) - Secretary of the Army Wilber M. Brucker said today the concept of a pushbutton war is a "dangerous myth" and declared the major combat burden of any war would fall on the U. S. Army.

Brucker, apparently taking note of recent Air Force criticism of Army weapons, added in a speech prepared for delivery at the Detroit Economic Club that "the Army's weapons - both atomic and nonatomic - are the best that have been developed."

ALLIANCE, Ohio (P) - At least three men were killed today when a Pittsburgh-Cleveland passenger train hit a truck at nearby Atwater, derailing two coaches which crashed into a feed mill.

"I would speak the truth, we are not willing to sacrifice to accomplish anything. Too frequently our leaders are content merely to have the honor of being president, or chairman or commander, and do nothing. We will be classed as full Americans when we stop asking and show a little independence ourselves. I have had the pleasure of leading the fund campaign at the Forster St. YMCA for several years. Our goal is \$5,000 and we have made it each year. But of the \$5,000 \$1700 was given by 15,000 Negroes and the rest from the white people. If each of the 15,000 gave fifty cents there would be no need for a drive.

Church's Oppotunity

"The Christian Church is missing a great opportunity. The ministers have confined themselves to the four walls of the church. The people who come here know how to live. The people on the corners are in need of the word of God. I found out in 30 years in the police department that if a man hears the word of God preached he is going to stop and listen, no matter now low he may have fallen.

"To raise our children we must have God-fearing homes, and we must train our children. We would combat juvenile delinquency. If our children do not get what they need at home, they will go elsewhere to seek it. We must educate our children if we are going to produce another Ralph Bunch, or Marian Anderson, or others to fill the places set by the best of our group.

thousand individuals didn't return home after the pleasures of the weekend

Of last year's traffic fatalities, more than one-fifth occurred on Saturday.

The reasons for this record number of weekend highway fatalities lie in the motoring habits of the American public. Every highway in the nation has its Saturday share of that portion of America bound and determined to arrive at its weekend destination in time for dinner, even if the trip's last sixty miles must be covered in an hour flat. Too frequently, the strain and fatigue of distance driving are ignored in anticipation of ample relaxation at the journey's end.

Then, too, our highways continue to be filled with those drivers whose idea of relaxation is an extra drink or two "for the

Transit Workers **Authorize Strike**

SCRANTON, Pa. (A) - Transit workers last night empowered their union executive board to call another strike against the Scranton Transit Co., idled for eight months last year and now in receivership.

Maintenance and operating employes of the Amalgamated Assn. of Street Electric, Railway and Motor Coach Employes voted the strike authority 138-5. No date was

spent by federal, state and municipal authorities in an effort to provide better and safer roads. Additional millions are spent by insurance companies and other private organizations for programs of safety education.

Nevertheless, the weekends of 1955 saw more persons killed and injured on our highways than ever before. It wasn't the fault of the road systems; it wasn't the fault of safety education campaigns. It was the fault of pleasure-bent individuals striving to go too far, too fast, for a weekend's enjoyment.

How to reduce this record total of killed and injured? What is desperately required is the immediate, unceasing cooperation of every American in possession of a driver's permit. An aroused awareness of the weekend highway peril, plus continued realization of this danger is the only way to reduce the weekend fatality figures for 1956.

he's anxious to pay out to 130,000 ex-G.I.'s holding Armed Forces Leave Bonds that have drawn no interest since 1951. The Treasury suggests that

Uncle Sam has \$26 million

the money be re-invested in United States Series E Savings Bonds, which pay 3 per cent compounded semi-annually when held to maturity.

The \$26 million is all that's left of more than two billion dollars paid to reimburse for unused leave those World War II veterans discharged between April 1, 1943, and October 1, 1946. The five-year bonds carried an interest rate of 21/2 per cent a year.

A special act of Congress in 1947 made the bonds redeemable prior to maturity after September 1 of that year. Some \$1.5 billion were cashed within the next few months, but the remainder were held to draw additional interest. However, the last of these matured on October 1, 1951, and have drawn no interest since that

Now the Treasury would like to clear its books of this bond issue, and is calling on all veterans' organizations to help locate the 130,000 bond owners, who have an average holding of \$200. And, the Treasury asks, since these veterans apparently don't need the money, why not put it in Series E Savings Bonds?
